

AIRSTREAM SERVICE BULLETIN # 150

AIRCONDITIONER COMPRESSOR EXCHANGE

Armstrong Furnace Company, the manufacturer of the Bay Breeze Air Conditioner, has recently changed to a Tecumseh compressor for their model TR 21-12 (12000 BTU) Air Conditioner. If replacement of the present Bendix-Westinghouse compressor becomes necessary you must use the kit #AC - 64. Instructions are attached and will be included with each kit.

Follow replacement instructions shown in your Airstream Service Manual. Use the flat rate allowance shown in the back of your 1972 Parts Price Book.
